

PHOENIX AVIATION ACADEMY

Student Handbook Coming Soon...

Sorry, we are still working on an amazing, informative, and incredibly useful student handbook. We do not want you to have wasted your time downloading this temporary file, so instead please enjoy some **cheesy** aviation humor:

Will invisible airplanes ever be a thing?

-Don't know, I just can't imagine seeing them take off.

What has a nose and flies but can't smell?

-An airplane!

I decided to leave work an hour early today.

-The flight attendants started freaking out when I grabbed my parachute, though.

What do you call it when a giraffe swallows a toy airplane?

-A "plane in the neck."

What sound was made when the airplane jumped on the trampoline?

-Boeing, Boeing, Boeing.

What is the purpose of the propeller on an airplane?

-To keep the pilot nice and cool — if you don't think so, just stop it and watch him sweat!

When Chuck Norris walks through airport security, he makes **them** take off their shoes.

What happens to a bad airplane joke?

-It never lands.
